16)	ORDER COMPELLING PINE WATER
17)	COMPANY TO FILE 2007 REQUIRED
18)	REPORTS

19 COME NOW, Fred B. Krafczyk, Michael Greer, and the Pine Strawberry Water Improvement
20 District (PSWID), by and through their attorney undersigned and hereby submit this *Supplement to the*
21 *Arizona Corporation Commission Report*. Attached hereto is a copy of a letter from Mr. Mark Reader of
22 Stone and Youngberg reflecting the ongoing effort of financing the acquisition of Pine and Strawberry
23 water companies by PSWID. It is significant to note that one of the items impeding the financing is that
24 Pine Water Company has failed to timely comply with the Arizona Corporation Commission regulations
25 and file the full and complete required financial reports for 2007. Due to the lack of this historical data,
26 it is more difficult for the PSWID to obtain financing.

27 THEREFORE IT IS RESPECTFULLY REQUESTED that this Honorable Commission order
28 Pine Water Company to file with the Arizona Corporation Commission all required financial reports for
29 2007 by or before December 31, 2008.

RESPECTFULLY SUBMITTED this 11th day of December, 2008.

December 11, 2008

Board of Directors
Pine-Strawberry Water Improvement District
P.O. Box 134
Pine, AZ 85544

Dear Members of the Board of Directors:

As you know, the Pine-Strawberry Water Improvement District recently retained Stone & Youngberg LLC ("S&Y") as the District's Investment Banker to assist the District with securing loan or bond funds for the purpose of acquiring the operating assets of the Pine Water Company, Inc. and the Strawberry Water Company, Inc. from Brooke Utilities, Inc. The District has also assembled additional professionals from a wide variety of disciplines which are required to complete a financing of this nature. We have attached a copy of the District's financing team distribution list which reflects the respective firms and individuals who have been working diligently with the District on the financing over the past several weeks on financing issues.

As you are aware, we are in the process of soliciting proposals from various banking and financial institutions and need additional time to secure and evaluate bids and then negotiate final terms and conditions which are in the best interests of the District. Water System acquisitions are complicated financings requiring work and cooperation among numerous parties and it is important to have a sufficient amount of time to complete. This is especially important given the current difficult credit conditions which prevail in the marketplace. In addition, it has been our experience that lenders and investors require complete historic financial and other information about the water systems being acquired and we understand that such complete information about the systems in this case is not currently on file as required with the Arizona Corporation Commission or otherwise available to the District.

We are working diligently to evaluate all options and to secure funding but the financing team feels we will need at least an additional 60 – 90 days after receipt of complete historic information to continue our best efforts to secure and complete a financing.

We will keep you informed of our discussions and negotiations as we continue to move forward. If I can answer any questions, please don't hesitate to contact me directly at 602-794-4011.

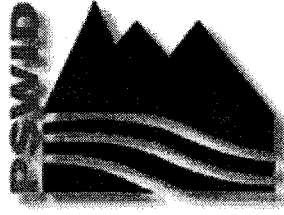

Sincerely,

Stone & Youngberg LLC

Mark Reader
Managing Director
