Summary	52.7	81.5		18.4		0.98	30		SSW					

April was cold with gusty winds & below normal precipitation (Pine Home, - 0.09" & Payson, - 0.22" from the mean). The coming month of May is the second dryest month of the year, on the average. As you know, we usually have a "double fire season" in the Rim area, Spring (May & June) & Fall (Oct. & Nov.), separated by a monsoon or summer period (July & Aug.) of average rainfall. If we get a lot of "dry lightning", thunderstorms with little moisture, then we have one very long fire season, May to November. Be fire safe!
