Sorry, folks, late again, & my excuse is Murphy's Law--wedding in CA, death in family, property transaction--in that order. May was unexpectedly wet while June was expectedly dry. Oh, for the r Will it save us from hauling charges? I doubt it, since summer rains usually have little effect on groundwater recharge. In order to add a blister to the sore, if the K2 Well had been drilled on sched we would have extra water by now, according to expert studies at the K2 Site. But, what the heck, the voters desired to buy the Castle rather than rent a single room. Good luck, District, in your grandiose venture.
