				provisional data

Pine Home Station rainfall was 0.19" above average for October, & Payson below its long-term October average by 0.69". NOAA predicts a dry winter for AZ, therefore we would expect Nov. & Dec. to be below average, & a 2011 annual deficit of over 5" for both stations. Precipitation for the first 7 days of Nov. already totals over the monthly average for Nov. so we'll wait to see what happens.
